The Boss Clothier.

Our Fall and Winter stock of Men's, Youths', Boys' and Children's Clothing is now complete, and if variety, in correct styles of designs and patterns, in connection with the very best workmanship, thereby produring the best fitting Clothing, count for anything, we think we are better prepared to serve the public this Fall than ever before, or any one else in our line.

In keeping with these facts we have not overlooked THE most essential point, the MIGHTY DOLLAR. Twenty-three years of experience in our business, with undivided attention, without which no business can be made a success, has enabled us to pay CASH for every dollar's worth of goods we buy. This means a decided advantage to our customers, as goods cannot be sold right unless bought right.

Thanking the public for past patronage and inviting Yours Truly, a renewal, we are,

a new furnace. The days of brittle, porous, cast non furnaces are numbered. In every brane 1 of manufacture cast iron is being driven out by wrought iron and steel. Every bridge that goes down in a wreck of lives and property i found to have cast iron members. Every bursting cannon which slays its friends rather than its enemies is med of cast iron. Every leaky furnace which poisons a nousehold with its noisome gases is found to be made of the same cheap, unreliable material. Improved methods of manufacture have made steel and iron plate, of first quality, less expensive than cast iron formerly was, and it is plainly in accord with progress in other directions that there should be progress both in design and the material of furnaces for warming our homes, churches and schools.

Col M—, in his perplexity, remembered this sauce. He visited the old patch and found but one bush yet standing. From the pods he distilled juice enough to fill a small bottle with sauce, and this he carried as a sample to the chief caterers and grocers in New Orleans, and took orders for the next season. The seeds were planted. Then followed two or three years of enviety and hard work, and then camesucce. The sauce has its place now on tables in every part of the country—Youth's Companion. Dr H D Burrell surgeon of the City and Carney hospitals, it is who has made the discovery in the way of furnishing a bridge for the nose. At the time spoken of above an otherwise fine looking woman from one of the thriving towns of the state with a not at all pleasant apology for a nose applied to Dr Burrell for relief Har deformity was such that sho was compelled to live a most secluded Choice Residence Property life tards going out save at night for needed exercise. It occurred to Dr. Bur rell that an improvement might be made on previous operations, and that by add ing a properly shaped piece of bone from a living animal a natural shaped nose could be made. An appointment was given the woman at Carney hospital and an operation was performed by cutting out the side of the mutlated member and turning it completely over A young chicken was then killed, and a piece of the breast bone of proper shape united to the root of the nose on the skull by silver wires. Then the flesh of the old nose was properly stratched over the bone and secured by histories. Temphing of cet The case is a strike HAVERON Report Strictness over the bone and secured by ligatures. IVERS & POND

Have You Seen Them? Have You Heard Them?

They stand at the head of all instruments of this class. In quality of tone, beauty of action, there oughness of workmanship, the Ivers & Pond Pianos have never been excelled. The Ivers & Pond Pianos will wear longest, stand better and cost less to keep in order than any other Piano. The choice of Schools and Colleges. Although better they cost no more than other first. and Colleges Although better they cost no more class Pianos. Buy a reliable Piano, made by a reliable Manufacturer. Warranted for Five Years

"How do you like my new plane, Professor"

"Beautiful' beautiful' It is simply perfect, so brilliant and at the same time so rich and full, and such a singing quality. You have shown good judgment in choosing an Ivers & Pond, they are a first-class house, and their planes are among the very best. I used to think there was but one plane in the world, the —, but I I am satisfied the Ivers & Pond are just as good, at a much lower price. I have watched their planes carefully for years, as I have had the opportunity to do in my profession, and find that they are not made simply to sound well at first, but stand use as well as any plane made. You were wise to buy their plane and save money at the same time, Madam."

DECATUR, ILL. ISITUNTILSUITED" ART ST

Do not believe all you hear in regard to the work done at the WALLACE ART STUDIO, but call and examine samples and prices before you pass judgment. Notwithstanding the

result of the recent election you can still get CABINET PHOTOS AT \$2.00 PER DOZEN. If you are contemplating having Large Work done call and see me. Mrs. M. G. De-Hart, our Portrait Artist, took a course in Europe, and understands the Art thoroughly and she can make you a Water Color, Pastel, Crayon, India Ink, or an Oil Portrait, finer J. B. BULLARD, than any one in this part of the State.

Call and examine our work; it is a pleasure to show it; and we say, as we have said before, if you have had work done at our studio and it is not satisfactory come and sit over.
